\*In December 2016, following an internal audit and US Department of Education investigation, Alabama education officials announced that graduation rates in the state had been improperly calculated and that the reported rates were inaccurate. We include the reported rates here, but note this important caveat and warn that these rates, in many cases, may be inflated.

Note. Total Cohort Size (N) = the sum of all students in the 9th grade cohort in the district level ACGR file listed below. Percent of Students with Disabilities within the Cohort (%) = the number of SPED students divided by the total cohort size within each state. Estimated Non-SPED ACGR (%) = the estimated graduates from all students minus SPED graduates divided by the estimated total cohort of all students minus SPED within the cohort (i.e., using state level ACGRs). SPED ACGR (%) = the actual state level ACGR from 2014-15. Gap between Non-SPED and SPED 2015 ACGR (Percentage Points) = the estimated non-SPED ACGR minus the SPED ACGR.
